# Travel Team Testimonials

Coach Calleri,

It was great speaking to you yesterday in regards to the progress Burning River Lacrosse has made over the past couple of years and the direction your program is headed.

Being a father / coach of my oldest son Hogan and current BR U-13 player Cooper, I have seen the errors in my ways by not maintaining a dedicated relationship with BR during my oldest son's high school career. Cooper will be a part of Burning River throughout high school for a number of reasons.

With Hogan we chased the “best” opportunities for college exposure through “a Columbus/Indiana based program” and “a Cleveland based program”. Although “good” lacrosse programs, neither of these organizations provided the honest feedback, the college recruiting guidance or the attention to our son in developing his game to hone his skills. Although Hogan was an Academic All-American, 2 time All Region, 2 time All-State Honorable Mention award winner I can give these two programs very little to no credit for those achievements. The honest insight we were afforded during Hogan's jr. and sr. years from the Burning River staff led us down the right path and we could not be more thankful.

Our youngest son Cooper is and will be a part of Burning River throughout his high school years for a number of reasons. Our experience this summer with the U-13 team was very competitive, the coaches gave our son and his team great instruction and this has continued on through the fall. We look forward to the winter development camps and the leagues. We have also made new friends with the other parents of the team and established a couple of business relationships.

A sincere thank you to Coach Calleri and the staff at Burning River for making it an easy choice for our sons to develop their love of the game of lacrosse.
