Travel Team Testimonials

Our son has been playing on the burning river team for several years now. The opportunities it has given him to develop his skills , teach, and compete have been remarkable. Woody is a complete professional. The kids respect him and he hires coaches who reflect his philosophy. All are young men we are happy to have as mentors for our son. The support from Woody as our son searched for a college where he could compete and also have a great academic experience was above and beyond. His efforts were decisive in putting these two aspects of our sons goals together in one school. We could not be more pleased with the guidance and support that he has given our son.

Lastly, we have had hours and days of watching thrilling competition at tournaments, and enjoyed them with other parents in a shared experience that will not be forgotten.

Sincerely,

Cecile Holden
